UML class for Template

Siging Xu, Chuanrun Zhang, Christine

TemplateSystem

- tm: TemplateManager
- + TemplateSystem(tm:TemplateManager)
- + create(TemplateType: String): void
- + GetTemplateRecords(): void
- + delete(templateId: Integer): void

TemplateManager

- + HashMap<Integer, Template> IdToTemplate
- + TemplateManager(idToTemplate: HashMap<Integer, Template>)
- + getTemplateId():ArrayList<Integer>
- + setIterrator(int iterator): void
- + getTemplates(): ArrayList<Template>
- + createTemplate(TemplateType:String): void
- + checkExsitedTemplate(TemplateId: Integer): boolean
- + removeTemplate(TemplateId: Interger): void
- + getTempplateById(TemplateId: Interger): Template
